Product 2024 Catalogue

Europe

Roll Roy is een Nederlandse producent/leverancier van een breed assortiment schildersbenodigdheden voor de industriële, professionele en DHZ markt.

Meer dan 50 jaar ervaring in het produceren van verfrollen en uitvinder van o.a. de 'Super Champion' en de 'Original Velvet Brush Roller'. Voortdurende ontwikkelingen en innovaties gebaseerd op de wensen van afnemers en verfindustrie hebben geresulteerd in een leidende marktpositie en een snel groeiende wereldwijde exportmarkt. Roll Roy produceert in alle voorkomende materialen met toepassing van hoogwaardige grondstoffen, waarbij wordt gestreefd naar hetvervaardigen van mindermilieu belastende producten.

Roll Roy ontwikkelt zich steeds nadrukkelijker als een 'totaalleverancier' en biedt u het beste in kwaliteit-prijs verhouding en producten aangepast aan de wensen van de markt. Onze ervaring, uw voordeel!

Roll Roy is a Dutch manufacturer/supplier for a wide range of painting tools for industrial, professional and DIY markets.

Over 50 years of experience in manufacturing paintrollers, and the inventor of the 'Super Champion' and the 'Original Velvet Brush Roller'. Constant product development and innovations based upon the needs of our customers and the paint industry have resulted in a leading market position with exports all over the world. Roll Roy produces all commonly used tools using only top quality raw materials, and we attach great importance to manufacture products which are less harmful to the environment.

Roll Roy has developed into a 'one stop supplier' and offers you excellent value for money products, designed to meet the needs of all our customers. Our experience, your benefit!

Roll Roy ist ein niederländischer Hersteller/Lieferant für ein breites Spektrum der Malerwerkzeuge für Industrie, Gewerbe und DIY-Märkten.

Über 50 Jahre Erfahrung in der Herstellung von Farbroller, und Erfinder der 'Super Champion' und der 'Original Velvet Brush Roller'. Ständige Produktentwicklung und Innovationen basiert auf den Wünschen unserer Abnehmer und der Farbenindustrie brachten uns in eine führende Marktposition mit Export auf die ganze Welt. Roll Roy produziert aus allen geeigneten Werkstoffen unter Verwendung von hochwertigen Qualitätsgrundstoffen alle gängigen Werkzeuge nur mit hochwertigen Rohstoffen, und legen großen Wert auf die Herstellung umweltfreundlicher Produkte.

Foam Brush

This foam brush is made of black polyurethane. The brush has a tapered end, wooden handle and a PVC insert for optimal stability during application. Foam brushes are suitable for applying and smoothing of one or two component systems of primers, lacquers, epoxies, oils amongst others. They can also be a handy tool for cleaning, brushing and polishing metal pastes. With its flexible shape it easily fits every nook and cranny. By gently handling the wooden handle with the thumb and index finger, you'll be able to smooth out the wet paint streak-free.

3M Masking Tape

3M™ Value General Purpose Masking Tape 101E is a premium quality tape ideal for many tasks including paint masking. Temperature resistant up to 60°C. Crepe paper backing for conformability that will maintain integrity when formed around corners. □ Backing saturated for easy tear - resists slivering yet hand tearable. Rubber adhesive with instant adhesion. Good holding power that resists lifting or curling and helps reduce rework. Special back side treatment controls unwind and helps reduce waste. Designed for indoor use.

Q1 Delicate tape

Delicate Surface Masking Tape Single Roll Ultra-thin and low tack adhesion Gentle removal with no residue Suitable for smooth and slightly textured surfaces Low tack paper masking tape specifically designed for the preservation of delicate surfaces during the painting process.

Description Technical Information: This special delicate masking tape can be used on freshly painted surfaces, when you need a lower adhesion level to help prevent surface damage. This doesn't mean it won't be sticky enough and fall while you are painting, in fact the less tacky tapes actually stick better, especially if they are good quality masking tapes! Q1® Delicate Surface Masking Tape assures easy removability on smooth and slightly textured surfaces and is perfect to get sharp, straight lines and prevent paint bleed. It removes cleanly both on smooth or slightly textured surfaces. This masking tape guarantees 7 days indoor clean removal on regular surfaces, so you won't worry about leaving masking tape for too long and take your time. When applied on freshly painted walls and smooth surfaces the tape assures 24 hours clean removal.

Plastic inner for Metal Kettle

The Plastic tin liners also offer an excellent solution. The can be placed inside a conical paint kettle and have a sharp striking tap, which allows the brush to be struck off well and allows the paint to flow back into the tin fully and directly. The plastic tin liner is characterised by an extremely high level of flexibility which means it does not break at low temperatures or by rough handling.

When painting directly from a paint kettle, a change of colour means a different paint kettle (tinplate container). When using a tin liner, this can be changed in its entirety, stored away with a close fitting lid and you can continue work in no time. A tin liner can also be used as stand alone. The liner is then often used as storage or brush tin, because of the close fitting lid.

#	🗑️	📦

Roll and Go

Roll and Go For painting and rolling in and around the house. Safe, easy and economical. Everything in one hand!

The Roll and Go is very handy painter's tool for everyone who paints. Everyone who has worked with a flat roller tray knows the inconveniences of the tray: it is always a balancing act with the tray. If you are standing on the stairs, the lacquer tray has no room to stand or hang. Or you keep having to bend over when you are painting in order to dip the roller or brush into the flat tray. Roll and Go on a ladder

Rolling The shape of the Roll-and-Go is round with a vertical rolling surface and a hollow handle. This allows for optimal rolling and the paint flows back into the paint tin in an optimal way. When you take a break you can rest the roller in the hollow handle. The Roll and Go is always easy to hold (for smaller hands as well), it stands stable on a flat surface and can be hooked onto (whether in a metal paint kettle or not) the rung of a ladder. You always have the paint to hand, close to the painting work. The Roll-and-Go allows you to continue working with ease, even when you are standing on a ladder. Painting The sharp rim on the Roll and Go allows the paint to be skimmed off the brush well and the paint flows back into the paint tin fully. Painting with roller and brush at the same time Roller and brush at the same time You can work with a roller and a brush from the Roll and Go at the same time without having to put anything away. You have paint, roller and brush in one hand. Whilst you work with the roller, your brush rests in the hollow of the handle, or vice versa. The rolling or painting is no longer interrupted to fetch a brush or paint. Storing You don't have to remove your roller from the handle in order to store your roller, but you can store it with the handle in the hollow of the handle. Even better is to put the roller in the handle with a bag around it and to then cover the star in the lid with a piece of tape. Your brush also fits perfectly into this hollow. Do not pour your paint back into the paint tin: put the lid on the Roll and Go and you can still continue painting after 5 days. Paint, brush and roller are saved together in one tin.

Fluxaf

**Fluxaf Power Clean 0,75 litre**

Fluxaf Power clean Product description and uses
Biodegradable Fluxaf Power clean is a very powerful ready to use alkaline cleaner and degreaser. Based on a range of solvents & surfactants, it's designed to remove tough stains in seconds from practically all hard surfaces. Fluxaf Power clean formula works on: -Chewing gum -Bumper Stickers -Labels -Kitchen cabinets -Kitchen grease -Masking tape -Tape residue -Fireplace soot -Smoke damage -Printer's ink -Crayon -Lipstick -Shoe polish -Soap Scum -Mildew Stains -Scuff marks -Cosmetics -Food & drink stains -Blood stains -Pet stains
Stubborn stains: For older or more difficult jobs like brake dust, oil grease and dried latex: apply a generous amount of cleaner and allow to stand for a few minutes before wiping off. repeat the application process if necessary
Pretreatment for painting: Paint will adhere to surfaces better and longer with Power clean than with traditional pretreatments, so you are assured greater reliability.
