FLOORING

Outside of this catalogue, we also have an extensive range of Flooring Tools in a separate catalogue. You can browse these items or download the specific Flooring Tools PDF on our website.

**Bristle roller spiral**

The bristles penetrate the laminate allowing for a smooth finish. Suitable for uneven and slightly curved Surfaces. Very effective at eliminating small air bubbles and pin-holes. Specially suitable for thin laminates, carbon fibres and epoxy resins.

Diameter: 22

| # | i | → | 📦 |
|---------|--------|-----|---|
| 9422100 | Roller | 100 | 1 |
| 9428100 | Roller | 100 | 1 |

**Corner roller**

Corner or disc Roller is manufactured from solid aluminium and has a secure bolt fixing. Special roller used to press the fibres and resin into the corners of a mould to create definition. Suitable for all resins and glass fibre fabrics.

Diameter: 37

| # | i | → | 📦 |
|---------|--------|---|---|
| 9637008 | Roller | 8 | 1 |

**Fin Roller, cylinder model**

GRP Aluminium Finned Rollers are manufactured from aluminium and have a secure screw fixing. Universal roller with deep fins spaced for maximum air relief. Vertical grooves reduce the amount of spray providing a consistent finish and prevent movement of the fibres. Light weight and easy to use

Diameter: 10

| # | i | → | 📦 |
|---------|--------|-----|---|
| 9210075 | Roller | 75 | 1 |
| 9210100 | Roller | 100 | 1 |

**Flexible roller**

Manufactured from a flexible steel spring with a secure nut fixing. Suitable on curved surfaces (convex or concave). Suitable for use with any glass fibre material.

Diameter: 25

| # | i | → | 📦 |
|---------|--------|----|---|
| 9325090 | Roller | 90 | 1 |

**Flexible roller**

Manufactured from a flexible steel spring with a secure nut fixing. Suitable on curved surfaces (convex or concave). Suitable for use with any glass fibre material.

Diameter: 40

| # | i | → | 📦 |
|---------|--------|-----|---|
| 9340140 | Roller | 140 | 1 |

Paddle roller, horizontal profile

Paddle Rollers are manufactured from aluminium extrusion and have a secure fixing. Ideal for knitted or uni-directional fibres. Robust profile giving very effective air removal. Suitable for large Surfaces.

Diameter: 21

| # | i | → | 📦 |
|---------|--------|-----|---|
| 9121050 | Roller | 50 | 1 |
| 9121070 | Roller | 70 | 1 |

Q1

Q1 Floor Proboard 90 cm x 45 mtr

Floor Protection Board Roll Prevents paint spills, moisture and liquids getting-through Easy-to-use and reusable product Longer and lighter compared to traditional floor boards 100% recycled and biodegradable paper Technical Information: Q1® Floor ProBoard is a reusable paper which provides a durable temporary floor protection for painting and renovation projects. Compared to traditional floor protection boards, this masking paper is characterized by a longer length and lighter weight which make it very easy to use and reposition during masking operations. Q1® Floor Pro Board is made of 100% recycled and biodegradable paper which protects any surfaces from paint spills and blocks moisture and liquids to get through to the surface, offering superior performance even in wet conditions.

3M Masking Tape

3M™ Value General Purpose Masking Tape 101E is a premium quality tape ideal for many tasks including paint masking. Temperature resistant up to 60°C. Crepe paper backing for conformability that will maintain integrity when formed around corners. □ Backing saturated for easy tear - resists slivering yet hand tearable. Rubber adhesive with instant adhesion. Good holding power that resists lifting or curling and helps reduce rework. Special back side treatment controls unwind and helps reduce waste. Designed for indoor use.

Q1 Delicate tape

Delicate Surface Masking Tape Single Roll Ultra-thin and low tack adhesion Gentle removal with no residue Suitable for smooth and slightly textured surfaces Low tack paper masking tape specifically designed for the preservation of delicate surfaces during the painting process.

Description Technical Information: This special delicate masking tape can be used on freshly painted surfaces, when you need a lower adhesion level to help prevent surface damage. This doesn't mean it won't be sticky enough and fall while you are painting, in fact the less tacky tapes actually stick better, especially if they are good quality masking tapes! Q1® Delicate Surface Masking Tape assures easy removability on smooth and slightly textured surfaces and is perfect to get sharp, straight lines and prevent paint bleed. It removes cleanly both on smooth or slightly textured surfaces. This masking tape guarantees 7 days indoor clean removal on regular surfaces, so you won't worry about leaving masking tape for too long and take your time. When applied on freshly painted walls and smooth surfaces the tape assures 24 hours clean removal.

Q1 Precision tape

Q1® Precision Line Masking Tape Engineered for HPLV and airless paint spraying Sharp paint lines UV & water resistant

Description Technical Information Q1® Precision Line Masking Tape is an ultra-thin paper masking tape for perfect razor sharp paint edges. This masking tape is a professional high-quality product, and is engineered for airless and HPLV paint spray. It's perfect for precise painting and decorative jobs indoor or outdoor and is UV and water resistant. 3560 Q1® Precision Line Masking Tape sticks perfectly on smooth surfaces, guarantees perfect adhesion and assures easy and clean removal without leaving any kind of residue on the application surface, nor peeling of the substrate. It's compatible with both solvent-based and water-based paints.

Plastic inner for Metal Kettle

The Plastic tin liners also offer an excellent solution. The can be placed inside a conical paint kettle and have a sharp striking tap, which allows the brush to be struck off well and allows the paint to flow back into the tin fully and directly. The plastic tin liner is characterised by an extremely high level of flexibility which means it does not break at low temperatures or by rough handling.

When painting directly from a paint kettle, a change of colour means a different paint kettle (tinplate container). When using a tin liner, this can be changed in its entirety, stored away with a close fitting lid and you can continue work in no time. A tin liner can also be used as stand alone. The liner is then often used as storage or brush tin, because of the close fitting lid.
